

Principal's message

Dear colleagues ,parents ,students, alumni and well wishers, Asian College of Science and commerce is the result of the powerful vision of the AAER, spearheaded by a *group of* highly committed and dedicated Management Team. The principal aim of the Trust is academic progress of the weaker and down trodden sections of the society. Our college is a self financing higher educational institution, affiliated to SPPU.

I appreciate every student who shared the joy of participation in co-curricular and extracurricular activities along with their commitment to curriculum. That little extra we do, is the icing on the cake. We are more conscious in imparting Holistic Educational Excellence to students, with a strong moral base..Our students are encouraged for developing their co-curricular and extra-curricular talents .

We believe in openness of mind, dignity of conduct and mutual respect in the back ground of social, economic, cultural, religious and linguistic diversity and develop a confident understanding of the role of a student in the Global society. We are giving special attention in developing the inter and intra-personal skills of students through soft- skill, aptitude, personality, career and entrepreneurial development programmes.

In the present age , there is a lot of exposure for the students. The postmodern culture has brought immense changes in our lifestyles and thinking patterns and this has deeply affected the younger generation. When we are able to understand the needs of children, especially emotional needs and act upon it, we can make them emotionally strong and firm. I foresee a better future of the students in this college and with the cooperation of the parents along with the parents we can take our students to a great new height.

I wish all the best to our staff and children. Let us make the difference in the world.
