Metric No. 7.3.1. Portray the institution's performance in one area distinctive to its priority and thrust.

Response:

Introduction:

The Asian College of Science and Commerce uniquely approaches higher education. It offers practical courses that equip students with skills that are useful in their careers and even for starting their businesses.- These short-duration courses are funded by prominent organizations such as the Khadi Village Industries Commission, the Bank of Maharashtra, and the Bank of Baroda. They are, therefore, free for students to enroll in. This is an impressive opportunity for students to gain valuable skills without paying for them.

The purpose of offering short-duration courses is to introduce students to career and market-oriented skill-enhancing courses that have practical value for their future careers, self-employment and empowerment. Upon completion, students will receive a certificate for the add-

on orientation course and their conventional Science, Arts or Commerce degree. The college provides a variety of career-oriented courses in various related fields.

This college stands out for its strong emphasis on teaching students how to become successful entrepreneurs. The college aims to empower its students to work for themselves, become business owners and provide excellent services to others. This vision and mission of the college is a crucial aspect that sets it apart.

The college operates on a self-financed basis with a limited budget, but it has successfully achieved its objectives. The number of students enrolling in short courses is increasing, and they are receiving better financial assistance from large organizations each year. This is a clear indication that the college's efforts are making a positive impact.

The college is known for its remarkable inclusivity, which sets it apart from other institutions. Regardless of their financial situation, every student can access the facilities and enroll in courses. This ensures everyone has an equal chance to receive a high-quality education, regardless of their background.

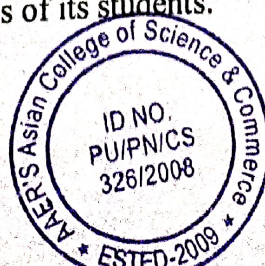

The courses cover many practical skills, including creating handbags, chocolates, and paper bags. Expert instructors teach these courses, and the college provides all the necessary materials for a comprehensive learning experience. This allows students to dive right into learning these practical skills from day one.

It is truly inspiring to witness the success stories that have emerged from these courses. Some students have even started their own businesses while still in college! They have utilized what they have learned from their classes to create something and earn an income. Others have found excellent jobs where they can apply the skills they learned in these courses. This clearly demonstrates the significant impact that the college's programs are having on the lives of its students.

Despite facing challenges, the college remains committed to its mission and has received increasing support from major organizations, even competing with colleges charging lower fees

The college has created a well-structured proposal to request additional financial assistance. They have outlined specific areas where they plan to allocate the funds, such as their student admission process, facility improvements, and faculty recruitment. This showcases the college's firm commitment to ensuring its programs have a considerable impact.

In the last five years, the college has experienced a significant rise in student enrollment. These students have received ample support from notable organizations, which is praiseworthy. Furthermore, a significant number of these students have started their own businesses and become financially independent even after graduation. It is truly inspiring to see the positive impact that this college is having on the lives of its students.

The number of students who participated during the last five years and the amount of financial assistance from funding agencies are shown below.

Sr. No.	Year	Name of the funding agency	Amount Received	The number of students who participated		
				Girls	Boys	Total
1.	2018-19	KVIC, Bank of Maharashtra, and Bank of Baroda	44,500	90	25	115
2.	2019-20	KVIC, Bank of Maharashtra, and Bank of Baroda	1,06,000	125	35	160
3.	2020-21	KVIC, Bank of Maharashtra, and Bank of Baroda	1,86,750	75	60	135
4.	2021-22	KVIC, Bank of Maharashtra, and Bank of Baroda	61,000	145	70	215
5.	2022-23	KVIC, Bank of Maharashtra, and Bank of Baroda	56,800	130	75	205
		Total	4,55,050	565	265	830

The college has submitted a proposal for financial assistance, which includes a detailed plan of admission, training facilities, and a list of trainers and students who have participated in these activities. The college offers skill-based education to students for free, and it motivates them to receive training and start their businesses according to the requirements of their surrounding area. Numerous students have established their enterprises and earned money while learning. After graduation, they continue to be fully involved in these activities with the support of their family members. Those unable to start their enterprise join organizations where they can apply their skills as employees.

(First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') as

WHEREAS:

A) First Party is a stare level Entrepreneurship Development institute named:

MAHARASHTRA CENTRE FOR ENTREPRENEURSHIP DEVELOPMENT

B) MCED & believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.

C) The Parties intent to cooperate and focus their efforts on cooperation within area of Entrepreneurship Based Training, Education and Research.

D) Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.

E) Asian Academy of Education and Research, the Second Party is an educational institution belonging to the people, working for the people and being administered by the people.

F) Asian Academy of Education and Research S.No 28/15/16 Narhe Dhayri (Pari Company Chowk Tal:Haveli Dist:Pune-411041

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:

CLAUSE 1 CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the **Institution** and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing entrepreneurial mindset which help student to decided entrepreneurship as a career choice keeping in mind the needs of the educational institute, the Second Party.
- 1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE 2 SCOPE OF THE MoU

- 2.1 The budding graduates from the institutions could play a key role in economic development of the country through establishing enterprises. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
- 2.2 **Curriculum Design:** First Party will give valuable inputs to the Second Party in designing teaching / training methodology and suitably customize the curriculum so that the students fit into the current entrepreneurial scenario meaningfully.
- 2.3 **Entrepreneurship Training & Visits:** Entrepreneurship training followed by industry visits will give an insight in to the latest developments / requirements of startups / enterprise setup. The entrepreneurship training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to entrepreneurial career. The Second Party will provide its Labs & training halls for the hands-on training of the learners enrolled with the First Party.

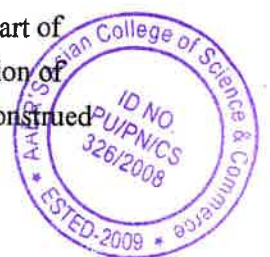

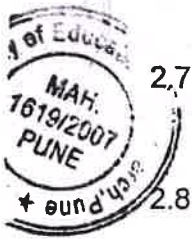

- 2.4 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of **Entrepreneurship**.
- 2.5 **Entrepreneurship Development Programs:** First Party to conduct training programme for the students of Second Party on entrepreneurship development in order to disseminate the information and make students attitude to go for entrepreneurship as a career choice.
- 2.6 **Entrepreneurship Awareness Programme:** First Party to extend the necessary support to conduct entrepreneurship awareness programme to the students of the Second Party on emerging trends in entrepreneurship.
- 2.7 **Faculty Development Programs:** First Party to train the Faculties of Second Party for imparting training on entrepreneurship development.
- 2.8 **Udyojak Magazine:** Udyojak magazine is one of the tools for cultivating entrepreneurial culture in the society. Second party will help first party for promoting Udyojak Magazine at large extent to serve the motto of magazine.
- 2.9 **Post Training support to Trained Students:** First Party will help actively for starting enterprise to the students of second party in terms of Business Plan Preparation, Marketing support, financial support from financial institutions, Design Support, Support for trial production, etc.
- 2.10 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programmes on the terms specified herein
- 2.11 There is no financial commitment on the part of the **MCED**, the First Party to take up any programme mentioned in the MoU. If there is any financial consideration, it will be dealt separately.

CLAUSE 3 INTELLECTUAL PROPERTY

Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period **MCED**, the First Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of **Asian Academy of Education and Research** the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MOU

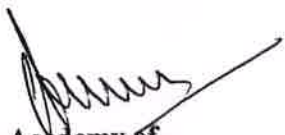

4.2 Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations.

CLAUSE 5 RELATIONSHIP BETWEEN THE PARTIES

5.1 It is expressly agreed that **MCED** and **Asian Academy of Education and Research** acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

MCED,
First Party

Asian Academy of
Education and Research
Second Party

Any divergence or difference derived from the interpretation or application of the MoU shall be resolved by arbitration between the parties as per the Arbitration Act, 1996. The place of the arbitration shall be at District Head Quarters of the First Party. This undertaking is to be construed in accordance with Indian Law with exclusive jurisdiction in the Courts of **Aurangabad/Pune**.

successor and assigns) of One Part AND **Asian Academy of Education & Research, Pune**, hereinafter called "**Professional Training Associates**" (Which expression shall, unless repugnant to the context or meaning thereof be deemed to mean and include its successor and assigns) of the other Part.

WHEREAS KVIC has been constituted to devote itself to the development and propagation of Khadi and Village Industries (KVI) in the country. The main object of KVIC is to create employment opportunities through presently ongoing scheme of MSME i.e. PMEGP (Prime Minister Employment Generation Programme) to set up micro, small and medium units. KVIC has as part of its function of imparting skill development training to the artisans and entrepreneurs, conducting Entrepreneurship Development Programme (EDP) and now proposes to establish linkages with Professional Training Associates wherever feasible to impart Skill Development Training Programme.

WHEREAS (**Asian Academy of Education & Research, Pune**) (e.g. is having the experience and expertise in providing training in Technical, IT Sector, Agriculture as well as Managerial Skill Development Program. As such, (**Asian Academy of Education & Research, Pune**) is desirous of providing training for Skill Development Training Programme through training centers of KVIC.

AND WHEREAS KVIC AND (**Asian Academy of Education & Research, Pune**) have agreed to initiate steps to work in collaboration with each other by jointly designing and organizing Skill Development

Contd...3

Training aiming to assist the new entrepreneurs, specifically in domains of the employability creating in their proposed micro, small and medium units.

AND WHEREAS (**Asian Academy of Education & Research, Pune**) is also desirous of utilizing the facilities of KVIC Departmental and Non-Departmental training centers to organize the Skill Development Training Programme. Wherever the training providers are having their own infrastructure, the same shall be utilized in case such trades/training programme are not being taken up in the KVIC's Training Centres.

NOW this indenture witnessed and it is hereby mutually agreed by and between parties hereto as follows:

1. Joint Responsibilities -

- (a) Conceptualizing, Executing, Publicizing/Marketing of the training program (s).
- (b) Certification of the successful participants of the training activities.
- (c) Promote training programs by approaching the right institutions in Government/Private sector to attract maximum audience.

2. Responsibilities of KVIC-

KVIC will be responsible for the following

- (a) Assessment of the Professional Training Associates

:4:

related to their experience and expertise in the relevant trade/training programme through training centres in the field.

- (b) To plan the training programme and co-ordinate with the Professional Training Associates from the commencement of training programme till the end of the training programme.
- (c) To facilitate the training programme through available scheme and financial assistance i.e. Prime Ministers Employment Generation Programme (PMEGP) as a facilitator.
- (d) To maintain the data of trained personnel in detail and record it as achievement of targets trained persons in the training centers.
- (e) Suggest the new training programme/trades considering available infrastructure and manpower at the training centers.
- (f) To Monitor the training programme conducted by Professional Training Associates.

3. Responsibilities of Professional Training Associates:

- (a) To organize and supervise the training programme to be conducted through KVIC.

Contd...5

:5:

- (b) To ensure about the preparation of Curriculum/Syllabi of the training programme, study materials and providing the same to the candidates.
- (c) Adhere to the guidelines/directions issued by KVIC from time to time through Circulars/Standing Orders while conducting the training programme.
- (d) To ensure the qualitative training programme and not merely the quantitative training programme.

4. **Financial Assistance:**

Existing guidelines and the pattern which is indicated below is applicable in the case of self-financing courses which is being conducted by the Professional Training Associates:

- (i) If the training programme is organized by utilizing the available infrastructure of KVIC's training centre then the fees sharing ratio will be 70:30 manner i.e. 70% will be shared by Professional Training Associates and 30% will be retained by KVIC out of the total fees collected.
- (ii) If the training programme is conducted /organized at the infrastructure available with Professional Training Associates or any other place, then the sharing ratio will be 80:20 manner i.e. 80% will be shared by Professional

Contd..6

Training Associates and 20% will be retained by KVIC out of the total fees collected.

- (iii) Other than point no (i) and (ii), the courses which are designed and organized by the Professional Training Associates and intent to organize such training programme then the fees for these courses will be finalized considering the nature of the trade, market demand and the duration of the courses as per the assessment made by Professional Training Associates.
- (iv) Expenses related to training programme, development of the training programme/courses, transport of the training providers, advertisement or any other miscellaneous expenses related to training programme will be borne by the Professional Training Associates. The detail statement of income and expenditure after completion of each training programme will be submitted to KVIC by Professional Training Associates.
- (v) Fees as decided by the Professional Training Associates will be collected by the KVIC at one go and deposited in the KVIC's account. Thereafter as per the pattern mentioned above at point no (i) and (ii) as the case may be, after retaining the share of KVIC, remaining amount will be paid to Professional Training Associates.

5. Use of logo and name:

Logo and name of the KVIC will be mutually consented while issuing the publicity material in newspaper from time to time for conducting training programme by the Professional Training Associates. For the said material hard copy and soft copy will be kept by Professional Training Associates themselves and should not be used except for the training programme being conducted in association with KVIC.

6. Validity of the Agreement:

Agreement between the KVIC and Professional Training Associates will be valid for 3 years from the date of execution of the agreement. However, every year within the tenure of 3 years, there will be renewal of the agreement and if the performance of the Professional Training Associates is not found satisfactory then the head of the Training Institution/ Training Centre/Field Offices of KVIC is deemed fit to take suitable decision for termination/ cancellation of the Agreement. Similarly, Professional Training Associates can terminate the agreement at any time by giving one month notice to the KVIC.

7. Dispute:

Any dispute arisen between the Professional Training Associates and KVIC will be mutually resolved and if both the parties fail to arrive at a mutual settlement, then for any recourse, courts in

Contd. 2

successor and assigns) of One Part AND **Asian Academy of Education & Research, Pune**, hereinafter called "**Professional Training Associates**" (Which expression shall, unless repugnant to the context or meaning thereof be deemed to mean and include its successor and assigns) of the other Part.

WHEREAS KVIC has been constituted to devote itself to the development and propagation of Khadi and Village Industries (KVI) in the country. The main object of KVIC is to create employment opportunities through presently ongoing scheme of MSME i.e. PMEGP (Prime Minister Employment Generation Programme) to set up micro, small and medium units. KVIC has as part of its function of imparting skill development training to the artisans and entrepreneurs, conducting Entrepreneurship Development Programme (EDP) and now proposes to establish linkages with Professional Training Associates wherever feasible to impart Skill Development Training Programme.

WHEREAS (**Asian Academy of Education & Research, Pune**) (e.g. is having the experience and expertise in providing training in Technical, IT Sector, Agriculture as well as Managerial Skill Development Program. As such, (**Asian Academy of Education & Research, Pune**) is desirous of providing training for Skill Development Training Programme through training centers of KVIC.

AND WHEREAS KVIC AND (**Asian Academy of Education & Research, Pune**) have agreed to initiate steps to work in collaboration with each other by jointly designing and organizing Skill Development

Contd...3

:3:

Training aiming to assist the new entrepreneurs, specifically in domains of the employability creating in their proposed micro, small and medium units.

AND WHEREAS (**Asian Academy of Education & Research, Pune**) is also desirous of utilizing the facilities of KVIC Departmental and Non-Departmental training centers to organize the Skill Development Training Programme. Wherever the training providers are having their own infrastructure, the same shall be utilized in case such trades/training programme are not being taken up in the KVIC's Training Centres.

NOW this indenture witnessed and it is hereby mutually agreed by and between parties hereto as follows:

1. Joint Responsibilities -

- (a) Conceptualizing, Executing, Publicizing/Marketing of the training program (s).
- (b) Certification of the successful participants of the training activities.
- (c) Promote training programs by approaching the right institutions in Government/Private sector to attract maximum audience.

2. Responsibilities of KVIC-

KVIC will be responsible for the following

- (a) Assessment of the Professional Training Associates

:4:

related to their experience and expertise in the relevant trade/training programme through training centres in the field.

- (b) To plan the training programme and co-ordinate with the Professional Training Associates from the commencement of training programme till the end of the training programme.
- (c) To facilitate the training programme through available scheme and financial assistance i.e. Prime Ministers Employment Generation Programme (PMEGP) as a facilitator.
- (d) To maintain the data of trained personnel in detail and record it as achievement of targets trained persons in the training centers.
- (e) Suggest the new training programme/trades considering available infrastructure and manpower at the training centers.
- (f) To Monitor the training programme conducted by Professional Training Associates.

3. Responsibilities of Professional Training Associates:

- (a) To organize and supervise the training programme to be conducted through KVIC.

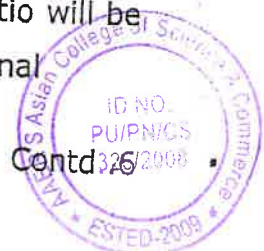

:5:

- (b) To ensure about the preparation of Curriculum/Syllabi of the training programme, study materials and providing the same to the candidates.
- (c) Adhere to the guidelines/directions issued by KVIC from time to time through Circulars/Standing Orders while conducting the training programme.
- (d) To ensure the qualitative training programme and not merely the quantitative training programme.

4. Financial Assistance:

Existing guidelines and the pattern which is indicated below is applicable in the case of self-financing courses which is being conducted by the Professional Training Associates:

- (i) If the training programme is organized by utilizing the available infrastructure of KVIC's training centre then the fees sharing ratio will be 70:30 manner i.e. 70% will be shared by Professional Training Associates and 30% will be retained by KVIC out of the total fees collected.
- (ii) If the training programme is conducted /organized at the infrastructure available with Professional Training Associates or any other place, then the sharing ratio will be 80:20 manner i.e. 80% will be shared by Professional

:6:

Training Associates and 20% will be retained by KVIC out of the total fees collected.

- (iii) Other than point no (i) and (ii), the courses which are designed and organized by the Professional Training Associates and intent to organize such training programme then the fees for these courses will be finalized considering the nature of the trade; market demand and the duration of the courses as per the assessment made by Professional Training Associates.
- (iv) Expenses related to training programme, development of the training programme/courses, transport of the training providers, advertisement or any other miscellaneous expenses related to training programme will be borne by the Professional Training Associates. The detail statement of income and expenditure after completion of each training programme will be submitted to KVIC by Professional Training Associates.
- (v) Fees as decided by the Professional Training Associates will be collected by the KVIC at one go and deposited in the KVIC's account. Thereafter as per the pattern mentioned above at point no (i) and (ii) as the case may be, after retaining the share of KVIC, remaining amount will be paid to Professional Training Associates.

:7:

5. Use of logo and name:

Logo and name of the KVIC will be mutually consented while issuing the publicity material in newspaper from time to time for conducting training programme by the Professional Training Associates. For the said material hard copy and soft copy will be kept by Professional Training Associates themselves and should not be used except for the training programme being conducted in association with KVIC.

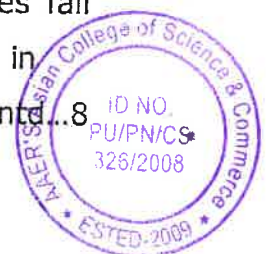

6. Validity of the Agreement:

Agreement between the KVIC and Professional Training Associates will be valid for 3 years from the date of execution of the agreement. However, every year within the tenure of 3 years, there will be renewal of the agreement and if the performance of the Professional Training Associates is not found satisfactory then the head of the Training Institution/ Training Centre/Field Offices of KVIC is deemed fit to take suitable decision for termination/ cancellation of the Agreement. Similarly, Professional Training Associates can terminate the agreement at any time by giving one month notice to the KVIC.

7. Dispute:

Any dispute arisen between the Professional Training Associates and KVIC will be mutually resolved and if both the parties fail arrive at a mutual settlement, then for any recourse, courts in

Contd...8

8:

Mumbai alone shall have the legal Jurisdiction to hear the matter.

(First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') as

WHEREAS:

A) First Party is a state level Entrepreneurship Development institute named:

MAHARASHITRA CENTRE FOR ENTREPRENEURSHIP DEVELOPMENT

- B) MCED & believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.
- C) The Parties intent to cooperate and focus their efforts on cooperation within area of Entrepreneurship Based Training, Education and Research.
- D) Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.
- E) Asian Academy of Education and Research, the Second Party is an educational institution belonging to the people, working for the people and being administered by the people.
- F) Asian Academy of Education and Research S.No 28/15/16 Narhe Dhayri (Pari Company Chowk Tal:Haveli Dist:Pune-411041

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:

CLAUSE 1 CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the **Institution** and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing entrepreneurial mindset which help student to decided entrepreneurship as a career choice keeping in mind the needs of the educational institute, the Second Party.
- 1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE 2 SCOPE OF THE MoU

- 2.1 The budding graduates from the institutions could play a key role in economic development of the country through establishing enterprises. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
- 2.2 **Curriculum Design:** First Party will give valuable inputs to the Second Party in designing teaching / training methodology and suitably customize the curriculum so that the students fit into the current entrepreneurial scenario meaningfully.
- 2.3 **Entrepreneurship Training & Visits:** Entrepreneurship training followed by industry visits will give an insight in to the latest developments / requirements of startups / enterprise setup. The entrepreneurship training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to entrepreneurial career. The Second Party will provide its Labs & training halls for the hands-on training of the learners enrolled with the First Party.

- 2.4 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of **Entrepreneurship**.
- 2.5 **Entrepreneurship Development Programs:** First Party to conduct training programme for the students of Second Party on entrepreneurship development in order to disseminate the information and make students attitude to go for entrepreneurship as a career choice.
- 2.6 **Entrepreneurship Awareness Programme:** First Party to extend the necessary support to conduct entrepreneurship awareness programme to the students of the Second Party on emerging trends in entrepreneurship.
- 2.7 **Faculty Development Programs:** First Party to train the Faculties of Second Party for **imparting** training on entrepreneurship development.
- 2.8 **Udyojak Magazine:** Udyojak magazine is one of the tools for cultivating entrepreneurial culture **in the society**. Second party will help first party for promoting Udyojak Magazine at large extent to serve the motto of magazine.
- 2.9 **Post Training support to Trained Students:** First Party will help actively for starting enterprise to the students of second party in terms of **Business Plan** Preparation, Marketing support, financial support from **financial institutions**, Design Support, support for trial production, etc.
- 2.10 Both Parties to obtain all **internal approvals, consents, permissions, and licenses** of whatsoever nature required for offering the Programmes on the terms specified herein
- 2.11 There is no financial commitment on the part of the **MCED**, the First Party to take up any programme mentioned in the MoU. If there is any financial consideration, it will be dealt separately.

CLAUSE 3 INTELLECTUAL PROPERTY

Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period **MCED**, the First Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of **Asian Academy of Education and Research** the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MOU

4.2 Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations.

CLAUSE 5 RELATIONSHIP BETWEEN THE PARTIES

5.1 It is expressly agreed that **MCED** and **Asian Academy of Education and Research** are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

MCED,
First Party

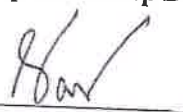

**Asian Academy of
Education and Research**
Second Party

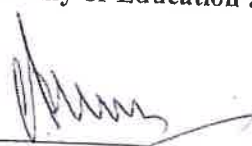

Any divergence or difference derived from the interpretation or application of the MoU shall be resolved by arbitration between the parties as per the Arbitration Act, 1996. The place of the arbitration shall be at District Head Quarters of the First Party. This undertaking is to be construed in accordance with Indian Law with exclusive jurisdiction in the Courts of **Aurangabad/Pune**.

Notice

Dear Team,

We are excited to announce an upcoming Jam Making Workshop organized by the Entrepreneurship Development Cell (EDP Cell). This workshop is scheduled to take place on 12/10/ 2019 at 8:00 AM in Seminar Hall.

The objective of this workshop is to encourage innovation, creativity, and entrepreneurial skills among our team members. Jam making not only offers a delightful culinary experience but also opens doors to potential business opportunities in the food industry.

We invite all members of the EDP Cell who have an interest in entrepreneurship, food processing, or simply enjoy culinary experiments, to join us for this hands-on workshop.

Let's come together to explore the sweet possibilities of entrepreneurship through jam making!

Best Regards,

Report On Jam Making

Date: 12/10/2018

Location: Asian College of Science and Commerce

Objective:

The Jam Making Workshop was organized by the Entrepreneurship Development Cell (EDP Cell) with the aim of fostering creativity, promoting entrepreneurial skills, and exploring business opportunities in the food industry among the participants.

Introduction to Jam Making:

The workshop began with an introduction to the art and science of jam making. Participants were briefed on the importance of using fresh ingredients and proper techniques to achieve

Recipe Exploration: Participants had the opportunity to explore various recipes and flavour combinations to create unique jams. They experimented with different fruits, spices, and sweeteners to customize their jam recipes according to their preferences.

Packaging and Preservation: The workshop also covered the basics of packaging and preservation techniques for jams. Participants learned about suitable containers, labelling requirements, and proper storage practices to ensure the longevity and quality of the products.

Conclusion

The Jam Making Workshop was a resounding success, achieving its objectives of promoting creativity, entrepreneurship, and collaboration among the participants. It provided valuable insights and practical skills that will empower participants to pursue entrepreneurial ventures in the food industry. The EDP Cell looks forward to organizing similar workshops in the future to continue nurturing the spirit of innovation and enterprise among its members.

Notice

Dear Team,

We are thrilled to announce an upcoming **Chocolate Making Workshop** under the auspices of the Entrepreneurship Development Cell (EDP Cell). This workshop is scheduled to take place on 21/07/2019 at 11:00AM in Seminar hall.

The purpose of this workshop is to foster innovation, sustainability, and entrepreneurial spirit among our team members. By learning the art of paper bag making, we not only contribute to reducing plastic usage but also explore avenues for potential business ventures in eco-friendly products.

During this workshop, participants will:

Acquire practical skills in crafting paper bags.

Understand the significance of eco-friendly alternatives in today's market.

Explore entrepreneurial opportunities in sustainable product development.

Engage in collaborative discussions to brainstorm ideas for future projects.

Let's embark on this journey together towards a greener and more entrepreneurial future!

Best Regards,

Chocolate Making Report

Introduction:

Chocolate making, the intricate process of transforming cocoa beans into a delectable treat, has a rich history dating back to ancient civilizations. This introduction explores the cultural, economic, and gastronomic significance of chocolate, highlighting its evolution from a ceremonial beverage to a globally beloved confection.

Historical Evolution

Tracing the historical roots of chocolate making, from Mesoamerican civilizations using cacao for ceremonial drinks to the European introduction of solid chocolate bars during the Industrial Revolution.

Cocoa Bean Varieties and Sourcing

Types of Cocoa Beans

Explore the major varieties of cocoa beans, including Criollo, Forastero, and Trinitario.

Discuss flavor profiles associated with each variety and their impact on chocolate.

Sustainable Sourcing Practices

Investigate the importance of ethical and sustainable sourcing in the chocolate industry.

Discuss initiatives such as fair trade certifications and direct relationships with cocoa farmers.

Chocolate Production Process

Harvesting and Fermentation

Detail the process of harvesting ripe cocoa pods and the crucial fermentation stage.

Discuss the influence of fermentation on flavor development.

Drying and Roasting

Explore the methods of drying and roasting cocoa beans and their impact on flavor and aroma.

Discuss advancements in technology for more controlled roasting.

Explain the grinding process to produce chocolate liquor and the role of conching in refining texture.

Discuss variations in conching times for different chocolate varieties.

Tempering and Molding

Detail the tempering process for achieving glossy and smooth chocolate.

Discuss molding techniques for

Chocolate Manufacturing Processes

Cacao Harvesting and Processing

Exploration of cacao plant cultivation and harvesting methods.

In-depth discussion on the processing steps, from fermenting cacao beans to drying and sorting.

Chocolate Manufacturing Stages

Explanation of the chocolate-making process, including grinding, conching, tempering, and molding.

Technological advancements in machinery for large-scale production.

3.3 Quality Control Measures

Detailed examination of quality control protocols at each stage of chocolate production.

Importance of flavor development, texture, and appearance in the final product.

Types of Chocolate

Dark Chocolate

Definition, cacao content, and health benefits.

Trends in artisanal dark chocolate and single-origin varieties.

Milk Chocolate

Composition, popular ingredients, and consumer preferences.

Innovations in milk chocolate formulations, including flavor infusions.

White Chocolate

Composition and processing differences compared to dark and milk chocolate.

Market trends and niche applications in the culinary industry.

Flavor Trends

Exploration of evolving flavor profiles, such as exotic spices, floral notes, and unconventional pairings.

Impact of consumer taste preferences on product development.

Inclusions and Additives

Sustainable Practices in Chocolate Making

Discussion of ethical sourcing, fair trade certifications, and environmental sustainability.

Initiatives by chocolate manufacturers to support cacao farmers and conserve biodiversity.

Marketing and Branding in the Chocolate Industry

Examination of successful marketing strategies by leading chocolate brands.

Impact of packaging design, storytelling, and social media on consumer perceptions.

Challenges and Innovations

Exploration of challenges faced by the chocolate industry, including supply chain issues and volatile cacao prices.

Showcase of innovative solutions, such as blockchain for traceability and sustainable packaging materials.

Health and Wellness Trends

Analysis of the intersection between chocolate consumption and health trends.

Discussion of functional chocolate with added nutritional benefits

Report on Paper Bag Making Workshop at Asian College

Date: 24/11/2019 to 30/11/2019

Time: 11:00 AM

Summary:

On 24/11/2019, conducted a paper bag making workshop for students from Asian College of Science & Commerce.

- **Promote environmental awareness:** By encouraging the use of eco-friendly alternatives like paper bags instead of plastic bags.
- **Develop crafting skills:** By providing hands-on experience in creating functional paper bags.
- **Foster creativity:** By encouraging participants to personalize their bags through decoration or design.
- **Workshop Structure:**
- **Introduction:** began with a brief introduction to the environmental impact of plastic bags and the benefits of using paper bags. She discussed the different types of paper bags and their applications.
- **Demonstration:** provided a step-by-step demonstration of the paper bag making process. She explained the materials needed, including different types of paper, scissors, rulers, glue, and optional decoration materials. She demonstrated cutting, folding, and gluing techniques to create a basic paper bag.
- **Hands-on Activity:** Participants were divided into small groups and provided with materials to create their own paper bags provided guidance and support throughout the activity, addressing any questions or challenges faced by the participants.
- **Wrap-up and Discussion:** Participants showcased their completed paper bags and shared their experiences in the workshop facilitated a discussion about the various applications of the bags and encouraged participants to explore further creative possibilities.

Report on Chocolate Making Workshop at Asian College

Date: 13/12/2018 to 15/12/2018

Time: 08:00 AM to 11:00 AM

Workshop Leader: Mrs Meena Madum

Participants:

Introduction:

A **Chocolate making workshop** was conducted by **Mrs. Meena Madum** on 13/12/2018 at **Asian College of Science & Commerce, Pune**. The workshop aimed to introduce students to the art of chocolate making, covering the basics of chocolate tempering, molding, and decoration.

Workshop Content:

- **Introduction to Chocolate:** Mrs. Meena Madum began the workshop by providing a brief overview of the history and types of chocolate. She discussed the different cocoa percentages and their impact on the final product's taste and texture.
- **Tempering Techniques:** The core of the workshop focused on tempering chocolate, a crucial step in achieving a smooth, glossy finish and desirable snap. Ms. Poonam demonstrated various tempering methods, including the seed method and the table method, explaining the scientific principles behind each technique.
- **Molding and Decoration:** Students were then provided with various chocolate molds and tools for decoration. Ms. Poonam guided them through the process of molding tempered chocolate and decorating their creations with edible elements like nuts, dried fruits, and sprinkles.

Outcomes:

- **The workshop successfully equipped students with the fundamental knowledge and skills of chocolate making.**
- **Students gained hands-on experience in tempering, molding, and decorating chocolates, allowing them to explore their creativity and produce unique chocolate confections.**
- **The interactive session fostered a sense of enjoyment and camaraderie among the participants.**

Conclusion:

The chocolate making workshop conducted by Ms. Poonam was a valuable learning experience for the students. They gained practical knowledge and skills in chocolate making, fostering their creativity and appreciation for this delightful treat.

Chocolate Making Report

Introduction:

Chocolate making, the intricate process of transforming cocoa beans into a delectable treat, has a rich history dating back to ancient civilizations. This introduction explores the cultural, economic, and gastronomic significance of chocolate, highlighting its evolution from a ceremonial beverage to a globally beloved confection.

Historical Evolution

Tracing the historical roots of chocolate making, from Mesoamerican civilizations using cacao for ceremonial drinks to the European introduction of solid chocolate bars during the Industrial Revolution.

Cocoa Bean Varieties and Sourcing

Types of Cocoa Beans

Explore the major varieties of cocoa beans, including Criollo, Forastero, and Trinitario.

Discuss flavor profiles associated with each variety and their impact on chocolate.

Sustainable Sourcing Practices

Investigate the importance of ethical and sustainable sourcing in the chocolate industry.

Discuss initiatives such as fair trade certifications and direct relationships with cocoa farmers.

Chocolate Production Process

Harvesting and Fermentation

Detail the process of harvesting ripe cocoa pods and the crucial fermentation stage.

Discuss the influence of fermentation on flavor development.

Drying and Roasting

Explore the methods of drying and roasting cocoa beans and their impact on flavor and aroma.

Discuss advancements in technology for more controlled roasting.

Explain the grinding process to produce chocolate liquor and the role of conching in refining texture.

Discuss variations in conching times for different chocolate varieties.

Tempering and Molding

Detail the tempering process for achieving glossy and smooth chocolate.

Discuss molding techniques for

Chocolate Manufacturing Processes

Cacao Harvesting and Processing

Exploration of cacao plant cultivation and harvesting methods.

In-depth discussion on the processing steps, from fermenting cacao beans to drying and sorting.

Chocolate Manufacturing Stages

Explanation of the chocolate-making process, including grinding, conching, tempering, and molding.

Technological advancements in machinery for large-scale production.

3.3 Quality Control Measures

Detailed examination of quality control protocols at each stage of chocolate production.

Importance of flavor development, texture, and appearance in the final product.

Types of Chocolate

Dark Chocolate

Definition, cacao content, and health benefits.

Trends in artisanal dark chocolate and single-origin varieties.

Milk Chocolate

Composition, popular ingredients, and consumer preferences.

Innovations in milk chocolate formulations, including flavor infusions.

White Chocolate

Composition and processing differences compared to dark and milk chocolate.

Market trends and niche applications in the culinary industry.

Flavor Trends

Exploration of evolving flavor profiles, such as exotic spices, floral notes, and unconventional pairings.

Impact of consumer taste preferences on product development.

Inclusions and Additives

Sustainable Practices in Chocolate Making

Discussion of ethical sourcing, fair trade certifications, and environmental sustainability.

Initiatives by chocolate manufacturers to support cacao farmers and conserve biodiversity.

Marketing and Branding in the Chocolate Industry

Examination of successful marketing strategies by leading chocolate brands.

Impact of packaging design, storytelling, and social media on consumer perceptions.

Challenges and Innovations

Exploration of challenges faced by the chocolate industry, including supply chain issues and volatile cacao prices.

Showcase of innovative solutions, such as blockchain for traceability and sustainable packaging materials.

Health and Wellness Trends

Analysis of the intersection between chocolate consumption and health trends.

Discussion of functional chocolate with added nutritional benefits

Flower Arrangement Making Report

Introduction

Flower arrangements, as an intricate form of artistry, involve the careful selection, placement, and harmonious blending of various flowers, foliage, and complementary elements. The significance of flower arrangements extends beyond mere aesthetics; it serves as a powerful means of communication, conveying emotions, cultural symbols, and sentiments. From expressing love and sympathy to enhancing celebratory occasions, flower arrangements have a universal language that transcends borders and cultures.

The importance of flower arrangements is deeply rooted in cultural practices and historical traditions. In many cultures, specific flowers hold symbolic meanings, and the arrangement itself may convey messages of love, respect, or celebration. Moreover, the therapeutic benefits of engaging with flowers, known as floratherapy, have gained recognition, further emphasizing the role of flower arrangements in promoting emotional well-being.

Types of Flower Arrangements

Traditional Styles

Traditional flower arranging styles reflect the cultural and historical contexts from which they originated. Ikebana, the Japanese art of flower arrangement, emphasizes minimalism, balance, and harmony. English Garden style, inspired by the natural beauty of English landscapes, embraces a loose, organic arrangement with a variety of blooms. Victorian Posy arrangements, rooted in the Victorian language of flowers, convey intricate meanings through carefully selected blooms.

Modern and Contemporary Trends

In the contemporary landscape, flower arranging has witnessed a departure from strict traditions, embracing a more eclectic and experimental approach. Minimalistic designs, characterized by simplicity and clean lines, appeal to a modern aesthetic. Asymmetry has become a hallmark of contemporary arrangements, challenging traditional notions of balance. The use of unconventional elements such as succulents, dried flowers, and unexpected foliage showcases a dynamic shift in design preferences.

Balance and Harmony

The principles of balance and harmony are fundamental to creating visually appealing flower arrangements. Achieving equilibrium in terms of color, size, and placement ensures that the arrangement is pleasing to the eye. Harmony, in the context of flower arranging, refers to the overall coherence and unity of the composition.

Focal Points and Depth

Creating focal points within a flower arrangement guides the viewer's attention and adds interest. Techniques such as using taller flowers or contrasting colors can establish a focal

point. Depth is achieved through the strategic placement of flowers at varying heights, creating a dynamic and multi-dimensional effect.

Color Theory in Flower Arranging

Understanding color theory is essential for crafting captivating flower arrangements. Different colors evoke distinct emotions, and the careful selection and arrangement of flowers based on color create a mood or atmosphere. Complementary color schemes, where colors opposite each other on the color wheel are used, can enhance the vibrancy and visual impact of an arrangement.

Tools and Techniques

Essential Tools

Flower arranging involves the use of specialized tools such as floral foam, shears, and vases. Floral foam provides a stable base for arrangements and ensures hydration, while high-quality shears enable precise cutting. Modern advancements include the use of 3D printing for custom vases and containers, showcasing the intersection of technology and traditional craftsmanship.

Wiring and Taping Techniques

Wiring and taping are essential techniques for securing and arranging flowers in a structured manner. Wiring involves attaching a flexible wire to the stem of a flower, enabling it to be manipulated into various shapes. Taping provides additional support and prevents breakage. These techniques contribute not only to the artistic aspect of flower arranging but also to the longevity of the arrangement.

Market Analysis

Consumer Trends

Changing consumer preferences play a crucial role in shaping the floral market. The rise of online flower delivery services has transformed the way consumers access and purchase flowers. Customization options, from choosing specific blooms to personalized arrangements, cater to the growing demand for unique and meaningful floral experiences.

Sustainability is a key consideration in contemporary flower arranging. Locally sourced flowers reduce the carbon footprint associated with transportation, and foam-free arrangements eliminate non-biodegradable materials. Composting initiatives and the use of eco-friendly packaging contribute to environmentally conscious practices within the industry.

Challenges

The flower arranging industry faces challenges related to seasonality, transportation logistics, and environmental impact. Seasonal fluctuations in flower availability can pose challenges for florists, requiring strategic sourcing. Transportation issues, especially for exotic flowers, contribute to the industry's carbon footprint.

Innovations

Innovations within the flower arranging industry are addressing these challenges. Controlled-environment agriculture and hydroponics enable year-round cultivation of certain flowers, reducing dependence on seasonal availability. Sustainable packaging materials and eco-friendly delivery practices contribute to reducing the environmental impact of the industry.

In conclusion, flower arranging stands at the intersection of tradition and innovation, embodying cultural richness, artistic expression, and a commitment to sustainability. As we navigate the dynamic landscape of the industry, the enduring beauty of flower arrangements continues to captivate and inspire, providing a timeless means of conveying emotion and celebrating life's moments.

Notice

Dear Team,

We are thrilled to announce an upcoming Hand Bag Making Workshop under the auspices of the Entrepreneurship Development Cell (EDP Cell). This workshop is scheduled to take place on 15/09/2019 TO 20/09/2019 at 8:00AM in Seminar hall.

The purpose of this workshop is to foster innovation, sustainability, and entrepreneurial spirit among our team members. By learning the art of paper bag making, we not only contribute to reducing plastic usage but also explore avenues for potential business ventures in eco-friendly products.

During this workshop, participants will:

Acquire practical skills in crafting paper bags.

Understand the significance of eco-friendly alternatives in today's market.

Explore entrepreneurial opportunities in sustainable product development.

Engage in collaborative discussions to brainstorm ideas for future projects.

Let's embark on this journey together towards a greener and more entrepreneurial future!

Best Regards,

Gujra

REPORT ON Hand Bag Making

Introduction:

Entrepreneurship Development Program (EDP) cells are essential entities that foster entrepreneurial spirit and facilitate the growth of small and medium enterprises (SMEs) in various sectors. Handbag making is an area that holds significant potential for entrepreneurship, offering opportunities for creativity, innovation, and business development. This report explores the prospects and challenges of handbag making under an EDP cell, focusing on training, support, and market access for aspiring entrepreneurs.

Training and Skill Development: One of the primary objectives of an EDP cell is to provide aspiring entrepreneurs with the necessary training and skill development opportunities. In the context of handbag making, training programs can cover a wide range of topics, including design principles, pattern making, material selection, cutting techniques, stitching, and finishing. Hands-on workshops, seminars, and mentorship programs can help participants acquire practical skills and knowledge essential for starting and running a handbag making business.

Challenges and Opportunities: While handbag making presents lucrative opportunities for entrepreneurship, it also entails certain challenges. Competition from established brands, fluctuating raw material prices, and evolving consumer preferences are some of the challenges that entrepreneurs may encounter in the handbag industry. However, by leveraging creativity, innovation, and strategic planning, entrepreneurs can overcome these challenges and build successful handbag brands that resonate with target customers.

Conclusion: Handbag making under an Entrepreneurship Development Program (EDP) cell offers promising opportunities for aspiring entrepreneurs to enter and thrive in the fashion and accessories industry. By providing training, support, and access to resources, EDP cells can empower entrepreneurs to turn their passion for handbag making into viable and sustainable businesses. With the right skills, resources, and market insights, handbag makers can create unique and desirable products that cater to the diverse needs and preferences of consumers worldwide.

Report On Jam Making

Date: 12/10/2019 and 13/10/2019

Location: Asian College of Science and Commerce

Objective:

The Jam Making Workshop was organized by the Entrepreneurship Development Cell (EDP Cell) with the aim of fostering creativity, promoting entrepreneurial skills, and exploring business opportunities in the food industry among the participants.

Introduction to Jam Making:

The workshop began with an introduction to the art and science of jam making. Participants were briefed on the importance of using fresh ingredients and proper techniques to achieve

Recipe Exploration: Participants had the opportunity to explore various recipes and flavour combinations to create unique jams. They experimented with different fruits, spices, and sweeteners to customize their jam recipes according to their preferences.

Packaging and Preservation: The workshop also covered the basics of packaging and preservation techniques for jams. Participants learned about suitable containers, labelling requirements, and proper storage practices to ensure the longevity and quality of the products.

Entrepreneurial Insights: Throughout the workshop, discussions were held on entrepreneurial strategies and market opportunities in the food sector. Participants were encouraged to consider the commercial aspects of jam making, including branding, marketing, and distribution channels.

Participants gained practical skills and knowledge in the art of jam making, including recipe formulation, cooking techniques, and product presentation.

The workshop provided a platform for creative expression and experimentation, allowing participants to develop their unique jam recipes.

Participants gained awareness of the entrepreneurial potential in the food industry and were inspired to explore business opportunities in jam making and related areas.

The workshop facilitated networking and collaboration among participants, fostering a sense of community and shared learning within the EDP Cell.

Conclusion

The Jam Making Workshop was a resounding success, achieving its objectives of promoting creativity, entrepreneurship, and collaboration among the participants. It provided valuable insights and practical skills that will empower participants to pursue entrepreneurial ventures in the food industry. The EDP Cell looks forward to organizing similar workshops in the future to continue nurturing the spirit of innovation and enterprise among its members.

Report on Paper Bag Making under Self Employment and entrepreneurial Skill Training at Asian College Collaboration with One Fort Pvt. Ltd.

Program: Self Employment and entrepreneurial Skill

Date: 02-12-2019 to 21-12-2019

Time: 10.00 AM To 12.00 PM

Guest: Mr. Vaijanath Kulkarni

Training Title: Training under Self-employment and entrepreneurial skill

1. Introduction

This report details the Self Employment and entrepreneurial Skill Training conducted in Asian College of Science and Commerce on 02-12-2019 to 21-12-2019. The aim of self-employment and entrepreneurship is to empower individuals to create their own opportunities for financial independence and personal fulfilment. By starting their own businesses or pursuing freelance work, individuals can take control of their careers, pursue their passions, and potentially achieve greater financial success. Self-employment and entrepreneurship also contribute to economic growth by creating jobs, fostering innovation, and driving competition in the marketplace.

2. Training Objectives

The Training aimed to achieve the following objectives:

The Provide attendees with practical knowledge and skills to start and grow their own businesses. Offer insights and strategies for successful self-employment and entrepreneurship. Equip participants with tools for effective business planning, marketing, and financial management. Inspire and motivate individuals to pursue their entrepreneurial dreams and take control of their careers. Facilitate networking opportunities and connections with industry experts and fellow entrepreneurs.

3. Training Description

The Training was held by Mr. Vaijanath Kulkarni. The Self-Employment and Entrepreneurial Skills Training is designed to provide participants with the knowledge, tools, and strategies needed to succeed in starting and growing their own businesses. This Training will cover a range of topics, including business planning, marketing, financial management, and networking.

Co-Ordinator
International Quality Assurance Cell
Asian College of Science & Commerce

4. Participation and Engagement

The session received enthusiastic participation from 35 students from various disciplines like B.Com, BBA(CA), BBA, BSC(CS), MSC(CS), BSC, MSC. They actively engaged in the discussions, actively participated in the communication.

Here are some glimpses of program:

5. Outcomes and Observations

The outcomes and observations of the Self-Employment and Entrepreneurial Skills Training are aimed at equipping participants with the necessary knowledge and skills to succeed in the world of self-employment and entrepreneurship. The outcomes and observations of the Self-Employment and Entrepreneurial Skills Training aim to empower participants to take control of their career paths and achieve success in the competitive world of entrepreneurship.

6. Conclusion

Self-Employment and Entrepreneurial Skill Training typically involves summarizing key takeaways and insights gained from the sessions. It may also include encouraging participants to apply the knowledge and skills learned to start or enhance their own businesses. Additionally, the conclusion may emphasize the importance of creativity, resilience, and adaptability in the entrepreneurial journey. Participants may be encouraged to network with fellow entrepreneurs, seek mentorship, and continue learning and growing in their entrepreneurial endeavors

Activity Reports on

(ENTERPRENERSHIP DEVELOPMENT)

TOPIC:- "(Workshop On Paper Sky Lamp Making)"

Recourse Person:- Prof. Shruti Rege (Toro)

Date:- 15 October 2020.

On the occasion of 13th Anniversary of Asian Academy of Education and Research, Asian College of Science and Commerce has organised competition on Online workshop Paper sky lamp Making On 4th October 2020. Every year asian college arrange EDP program for their Commerce students so that they get exposure and practical knowledge for their future business plan, and service point of view. But in this Academic year 2020-21 We have face some problem for arrange such type of program so we have arrange online workshop for the students. Student as learn paper sky lamp making and They made Sky lamp and sold that Lamp to their neighbours at the time of divali. And make report on that activity by student with accounting Calculations.

INTRODUCTION:-

A **paper lantern** is a lantern made of thin, brightly colored paper.^[1] Paper lanterns come in various shapes and sizes, as well as various methods of construction. In their simplest form, they are simply a paper bag with a candle placed inside, although more complicated lanterns consist of a collapsible bamboo or metal frame of hoops covered with tough paper. Paper lanterns are likely derived from earlier lanterns that used other types of translucent material like silk, horn, or animal skin. The material covering was used to prevent the flame in the lantern from being extinguished by wind, while still retaining its use as a light source.

OBJECTIVE :-

- Objectives of Entrepreneurial Development Programmes
 - 1. To Promote First Generation Businessman and Industrialists
 - 2. To Create Awareness about Availability of Resources
 - 3. To Promote Small, Cottage & Local Industries
 - 4. To Encourage Self Employment Tendencies

- 5. To Provide Knowledge about Government Plans and Programmes
- 6. To Make a Successful Entrepreneur
- 7. To Provide Training to Operate Business
- 8. To Create Awareness about Marketing
- 9. To Develop Entrepreneurs in all Areas of the Country
- 10. To Remove Doubts of Entrepreneurs, Give Solutions and Suggest Remedies of Problems

Photograph of this workshop :-

Teachers who are providing training

Sky lamp is ready to sale

Conclusion :-

Entrepreneurship Development Programme (EDP) is a programme which helps in developing the entrepreneurial abilities. The skills that are required to run a business successfully, is developed among the people through this programme. Sometimes, people

may have skills but it requires polishing and incubation. Entrepreneurship must be developed and supported so that there is a proliferation of SMEs in the country. An entrepreneur's entry into business does not guarantee his/her survival. Attrition rate for new entrepreneurs is very high in many countries of the world. While this may be because their chosen business inappropriate or a lack of adequate technical or business expertise, one critical reason is that overall macro and micro environment in which they are forced to operate. Therefore a key consideration by the government should be to critically evaluate the exiting macro economic policies and their impact on grassroots entrepreneurship development.

Report on PHOTOGRAPHY

Introduction:

Entrepreneurship Development Programs (EDP) play a vital role in fostering economic growth and innovation by supporting aspiring entrepreneurs in various sectors. This report focuses on the photography initiatives undertaken under the EDP, highlighting their significance, implementation strategies, challenges, and outcomes.

Significance of Photography Initiatives: Photography initiatives under the EDP offer unique opportunities for individuals to explore entrepreneurship in the creative industry. By providing training, resources, and support, these initiatives empower aspiring photographers to turn their passion into a sustainable business venture. Moreover, photography plays a crucial role in visual storytelling, branding, and marketing across diverse sectors, making it a valuable skill set for aspiring entrepreneurs.

Implementation Strategies:

The EDP employs various strategies to support photography initiatives. Offering photography workshops, seminars, and skill development programs to equip aspiring photographers with technical skills, creative vision, and business acumen. Facilitating access to cameras, lenses, lighting equipment, and editing software through rental services, equipment libraries, or partnerships with photography suppliers.

Mentorship and Networking: Connecting aspiring photographers with experienced professionals, mentors, industry experts, and networking opportunities to learn from their experiences, gain insights, and build relationships.

Photography initiatives under the EDP encounter several challenges:

Acquiring and mastering photography equipment and software tools can be costly and daunting for aspiring photographers, especially those with limited technical expertise.

Market Competition: The photography industry is highly competitive, with numerous established professionals and emerging talents vying for clients and opportunities.

Establishing a successful photography business requires not only artistic talent but also effective marketing, client management, and financial planning skills.

Intellectual Property Rights: Understanding and protecting intellectual property rights, copyright laws, and usage rights for photographs can be complex and challenging for photographers.

Despite the challenges, photography initiatives under the EDP have yielded positive outcomes:

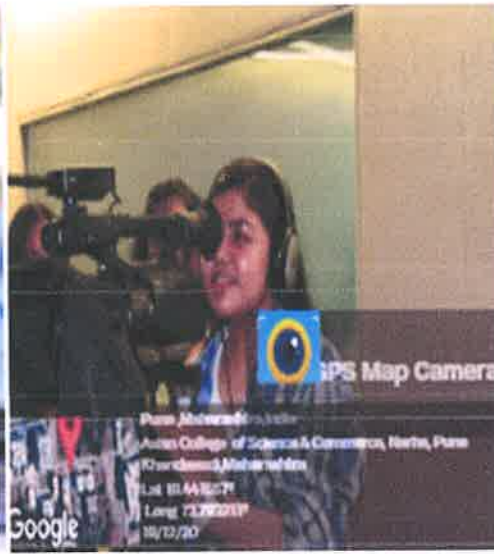

By nurturing artistic talent and creative vision, photography initiatives enable individuals to express themselves, tell stories, and convey messages visually.

Through training, mentorship, and hands-on experience, photography initiatives equip aspiring photographers with essential entrepreneurial skills, such as business management, marketing, and client relations.

Photography initiatives foster a sense of community among aspiring photographers, professionals, and enthusiasts, encouraging collaboration, knowledge sharing, and mutual support.

Conclusion:

Photography initiatives under the Entrepreneurship Development Program (EDP) offer valuable opportunities for individuals to pursue entrepreneurship in the creative industry. By providing training, resources, and support, the EDP empowers aspiring photographers to build successful businesses, contribute to economic growth, and enrich the cultural landscape. Continued efforts to address challenges, enhance skills, and foster collaboration will be essential in nurturing a vibrant ecosystem of photography entrepreneurship under the EDP.

Report on Paper bag making

Introduction:

The Entrepreneurship Development Program (EDP) Cell has been instrumental in promoting sustainable and eco-friendly business initiatives. Among these, paper bag production stands out as an environmentally conscious alternative to plastic bags. This report examines the significance, implementation strategies, challenges, and outcomes of paper bag production facilitated by the EDP Cell.

The production of paper bags addresses the pressing need for environmentally friendly packaging solutions. With growing concerns about plastic pollution and environmental degradation, paper bags offer a sustainable alternative for businesses and consumers. Additionally, paper bag production fosters entrepreneurship by providing income-generating opportunities and promoting community engagement.

The EDP Cell has implemented various strategies to support paper bag production initiatives:

Access to Resources: Facilitating access to raw materials, such as recycled paper or sustainably sourced paper, as well as equipment and machinery required for bag production.

Business Development Support: Providing guidance on business planning, marketing strategies, pricing, and distribution channels to ensure the viability and success of paper bag enterprises.

Promoting awareness about the environmental benefits of paper bags through outreach activities, educational campaigns, and partnerships with environmental organizations.

Despite the support provided by the EDP Cell, paper bag production initiatives encounter several challenges:

The paper bag market may be saturated with established players or alternative packaging options, requiring entrepreneurs to differentiate their products through innovation and quality.

Paper bag production provides income-generating opportunities for individuals, particularly in rural and marginalized communities, thereby promoting economic resilience and livelihood enhancement.

Conclusion:

Paper bag production initiatives under the Entrepreneurship Development Program (EDP) Cell exemplify the integration of environmental sustainability and entrepreneurship in addressing contemporary challenges. By providing training, resources, and support, the EDP Cell empowers individuals to establish viable paper bag enterprises, thereby promoting environmental conservation, economic empowerment, and community development. Continued efforts to address challenges, enhance technical skills, and promote market awareness will be essential in scaling up paper bag production initiatives and fostering a culture of sustainability and entrepreneurship.

Report on Mask Making

Introduction:

The Entrepreneurship Development Program (EDP) Cell has been instrumental in fostering entrepreneurship and supporting aspiring entrepreneurs in various sectors. Amidst the COVID-19 pandemic, there has been a growing need for initiatives that address public health concerns while promoting economic sustainability. This report focuses on the mask-making efforts facilitated by the EDP Cell, highlighting its significance, implementation strategies, challenges, and outcomes.

Significance of Mask Making:

The COVID-19 pandemic necessitated the widespread adoption of face masks as a crucial preventive measure against virus transmission. The production of masks not only fulfills the public health requirement but also presents an opportunity for entrepreneurship and economic empowerment. By engaging in mask making, individuals can contribute to meeting the demand for protective equipment while generating income for themselves and their communities.

The EDP Cell has adopted several strategies to support mask-making initiatives:

Conducting training programs on mask making, including workshops on sewing techniques, material selection, quality control, and business management.

Facilitating access to raw materials, equipment, and financial resources required for mask production through partnerships with suppliers, financial institutions, and government agencies.

Providing guidance on marketing strategies, branding, and distribution channels to ensure the successful promotion and sale of masks in local and global markets.

Despite the support provided by the EDP Cell, mask-making initiatives encounter several challenges:

Limited availability of raw materials, particularly during the initial stages of the pandemic, posed challenges to consistent mask production.

Some individuals may lack the technical skills required for mask making, necessitating comprehensive training and skill development programs.

Market Competition: The proliferation of mask-making businesses has intensified market competition, requiring entrepreneurs to differentiate their products through innovation and quality.

Regulatory Compliance: Ensuring compliance with regulatory standards and certification requirements for masks can be complex and time-consuming for entrepreneurs.

Outcomes: Despite the challenges, the mask-making initiatives facilitated by the EDP Cell have yielded positive outcomes:

Economic Empowerment: Mask making has provided income-generating opportunities for individuals, especially women and marginalized communities, contributing to poverty alleviation and economic resilience.

Public Health Impact: Increased availability of locally produced masks has enhanced access to affordable and high-quality protective equipment, thereby reducing the risk of virus transmission within communities.

Entrepreneurship Promotion: The success of mask-making ventures has inspired entrepreneurship and innovation in other sectors, fostering a culture of self-reliance and sustainable development.

Conclusion:

The mask-making initiatives under the Entrepreneurship Development Program (EDP) Cell exemplify the intersection of public health and entrepreneurship in addressing the challenges posed by the COVID-19 pandemic. By providing training, resources, and support, the EDP Cell has empowered individuals to venture into mask production, thereby promoting economic sustainability and contributing to public health objectives. Continued efforts to address challenges, foster innovation, and scale up mask-making initiatives will be essential in realizing the full potential of entrepreneurship in mitigating the impact of the pandemic.

GUEST LECTURER: - Dr Vidya patil AISSMS, college of engineering pune.

On this impact lecture series the topic was the beauty of energy transfer vidya patil focused some points like

Renewable Energy

- Solar
- Biomass
- Wind
- Hydropower
- Tidal
- Wave
- Biofuel - (Nonedible seeds -IIT Guwahati)
- Gasoline (AISSMS COE Pune Student)

Profitable Small Scale Energy Business Ideas

1. Automobile Battery Store

The battery is an obvious power solution for any type of vehicle. Therefore, it is a mandatory item for two or four-wheelers. You can start a battery store with moderate capital investment. It is advisable to start with reputed brands.

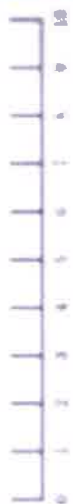

GOI INITIATIVES - MilIndia

ACCELERATING GROWTH OF NEW INDIA'S INNOVATION (AGNII)

Launched by the Principal Scientific Adviser to the Government of India, to boost India's innovation ecosystem by connecting individuals and helping commercialize innovative solutions.

How Creative Are You ?

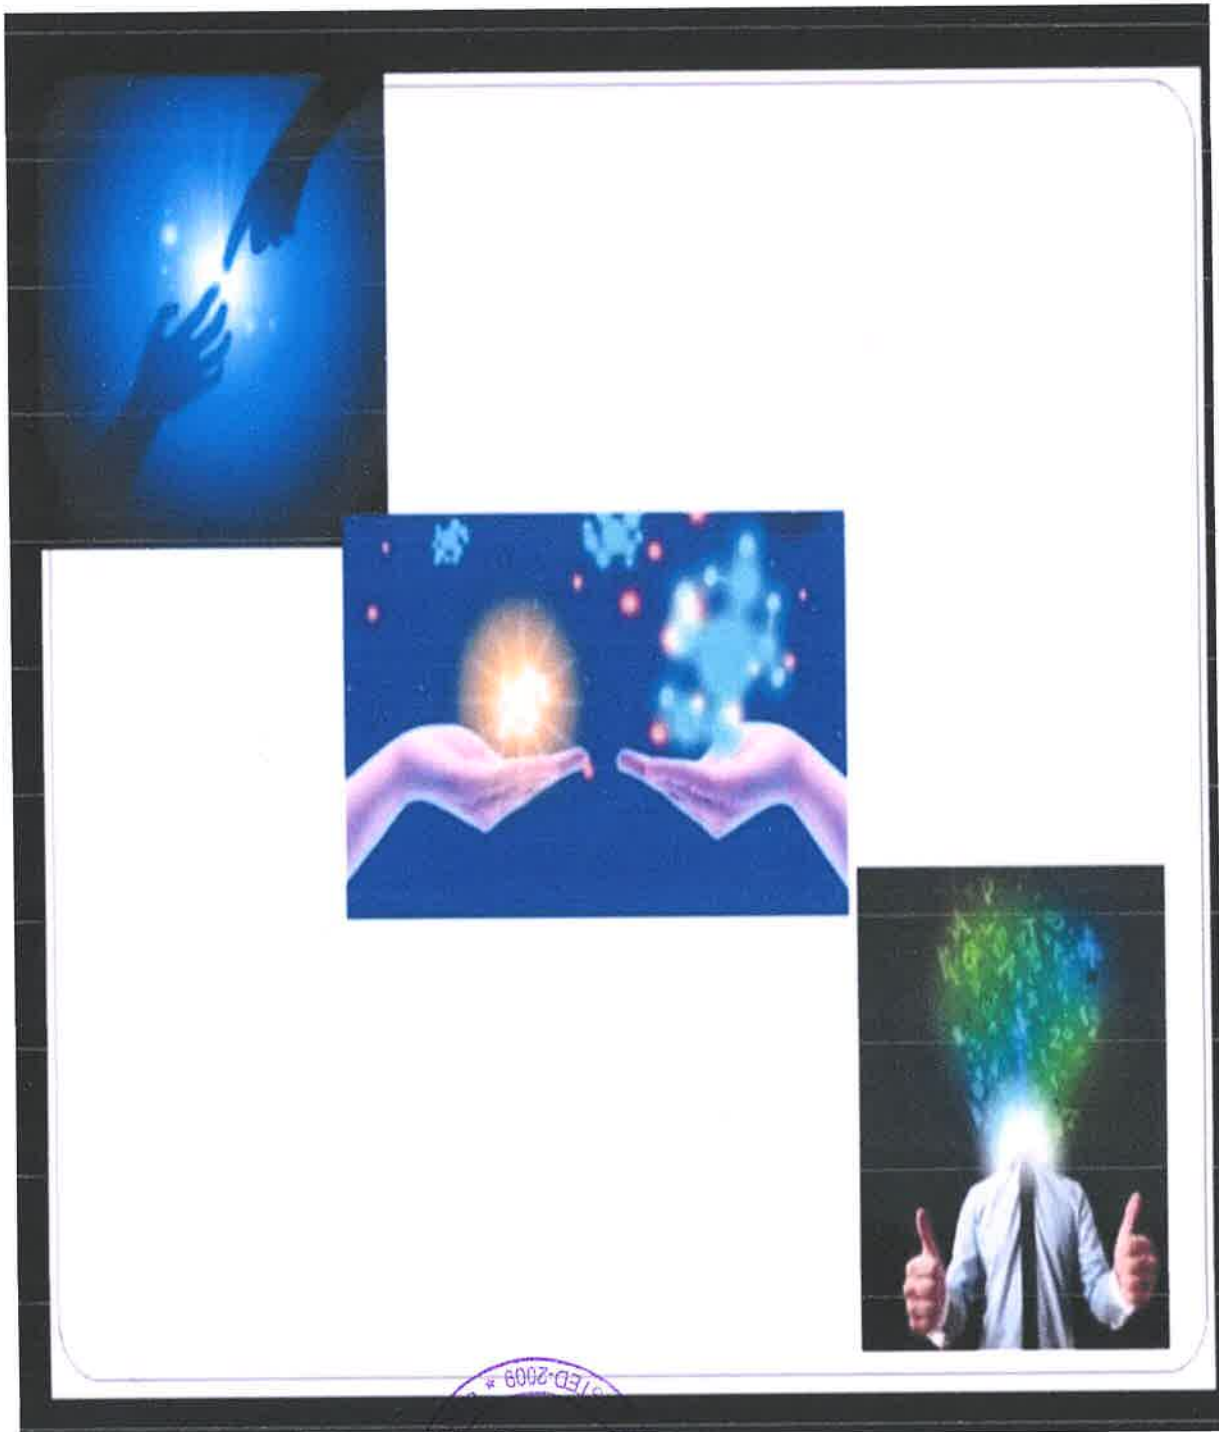

discovery

delivery

In this lecture main points are use electrical vehicles to decrease pollution in zero present carbon also provide electric shed to stop evaporation of water and due electric shed it provide electricity. For solar energy government also support for that your creativity and discovery also Nobel idea is important.

Electric scooter by IITians can self balance like Honda concept – Video

IITs – Start up as BE Project

<https://www.rushlane.com.cdn.ampproject.org/c/s/www.rushlane.com/electric-scooter-self-balance-12324565.html/amp>

MSEDCL's per unit rate is Rs 4.67 for those consuming electricity between 0-100 units. For consumers whose consumption is more, between 101 and 300 units, the rate is Rs 6.58 per unit. Beyond that, between 301-500 units, it costs Rs 8.57 per unit.

Conclusion :-Students motivated by saying customer are interested for electrical vehicles vehicle charging station ,solar battery like that but you should reach them.

Sunlight convert electrical energy by solar, for that good option for business is trading, component and infrastructure is very necessary.

GUEST LECTURER: - Prof. Gururaj Dangre , Head – Startup & Innovative Cell, PIBM, chinchwad, Pune. .

On this impact lecture series the topic was how to develop innovative thinking and a way to incubation ideas towards business .Prof. Gururaj Dangre focused some points like

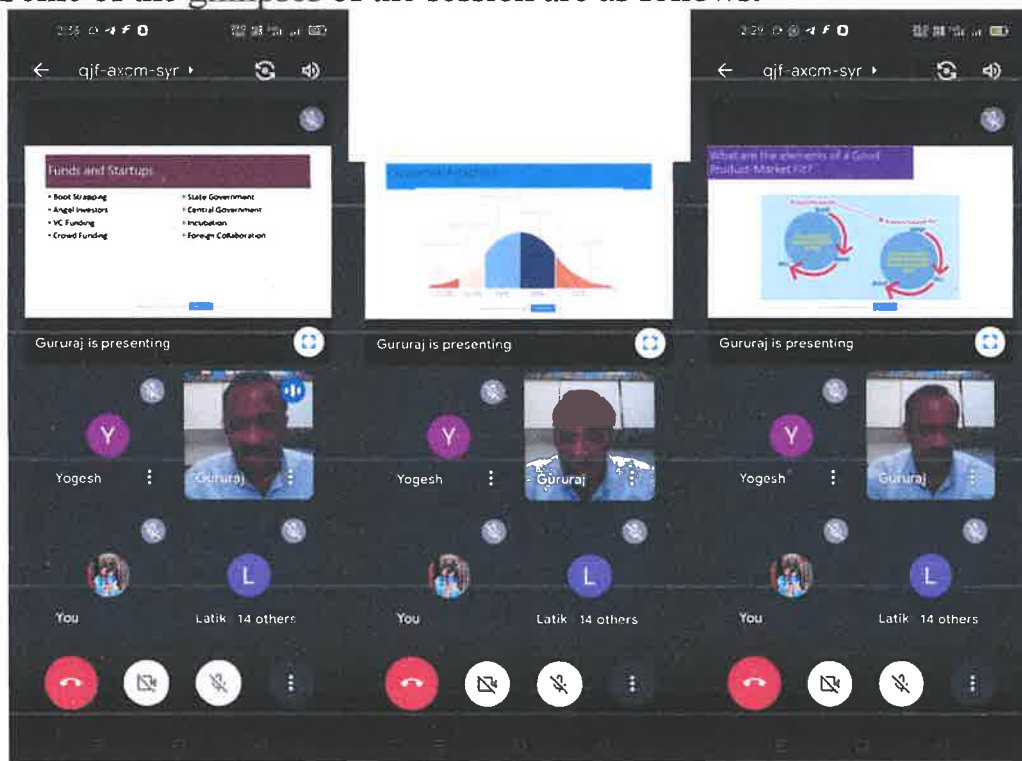

- 1) What is meant by Incubation Lab.
 - 2) The Activities carried or expected in Incubation.
 - 3) The Collaboration of college and Incubation
 - 4) How to choose incubation and motivate students towards the same
- He has explained the Process of Incubation right from the selection of a product to innovate to the final product built and market scope of the product. The Demand of the product and the reliability of the product plays an important role with any product whichever is selected. The Funds needed for the startup will be raised under different investors only if he is satisfied about the product and sees the future of the product.

Customers must be adapted to the product and used to the product and habitual with the same. Customers must be attracted with different schemes and sample testing product once it reaches the customer other step comes is the taste and the market competitor for the same.

He has also explained the Elements of the good market and the product-market fit of a innovation idea.

Incubation lab differs from incubation to incubation and the policies related the same also. Even incubation is the starting point where the innovation idea is built and developed under predefined conditions and support of experts team with them.

Some of the glimpses of the session are as follows.

In this lecture discussion done on Innovation, counseling, how to developed business with your capacity and your innovation factors. In this covid19 conditions how our pm narendra modiji promoting business ideas, we should innovate, start own company and expand it also increase economy for nation. India Improved rank in this pandemic also.

Lecturer Prof. Gururaj Dangre discuss with students about how positive energy gives strength to us they also explained different types of energy. Students also shared their future plan about their career with different types of ideas for business tag line, promotion and final products.

Conclusion: Students motivates by saying to work together and increase Nation Innovation start up policy also use innovation design thinking and multitasking education. Business is trading, for that component and infrastructure is very necessary.

Report on Self Employment and entrepreneurial Skill Session at Asian College

Program: Self Employment and entrepreneurial Skill

Date: 8/25/2021

Time: 11.00 AM

Guest: Mr. Gururaj Dangare

Session Title: Self Employment and entrepreneurial Skill

1. Introduction

This report details the Self Employment and entrepreneurial Skill Session conducted in Asian College of Science and Commerce on 8/25/2021. The aim of self-employment and entrepreneurship is to empower individuals to create their own opportunities for financial independence and personal fulfilment. By starting their own businesses or pursuing freelance work, individuals can take control of their careers, pursue their passions, and potentially achieve greater financial success. Self-employment and entrepreneurship also contribute to economic growth by creating jobs, fostering innovation, and driving competition in the marketplace.

2. Session Objectives

The Session aimed to achieve the following objectives:

The Provide attendees with practical knowledge and skills to start and grow their own businesses. Offer insights and strategies for successful self-employment and entrepreneurship. Equip participants with tools for effective business planning, marketing, and financial management. Inspire and motivate individuals to pursue their entrepreneurial dreams and take control of their careers. Facilitate networking opportunities and connections with industry experts and fellow entrepreneurs.

3. Session Description

The Session was held by Mr. Gururaj Dangare. The Self-Employment and Entrepreneurial Skills Session is designed to provide participants with the knowledge, tools, and strategies needed to succeed in starting and growing their own businesses. This Session will cover a range of topics, including business planning, marketing, financial management, and networking.

Internal Quality Assurance Cell
AAER'S Asian College of Science & Commerce

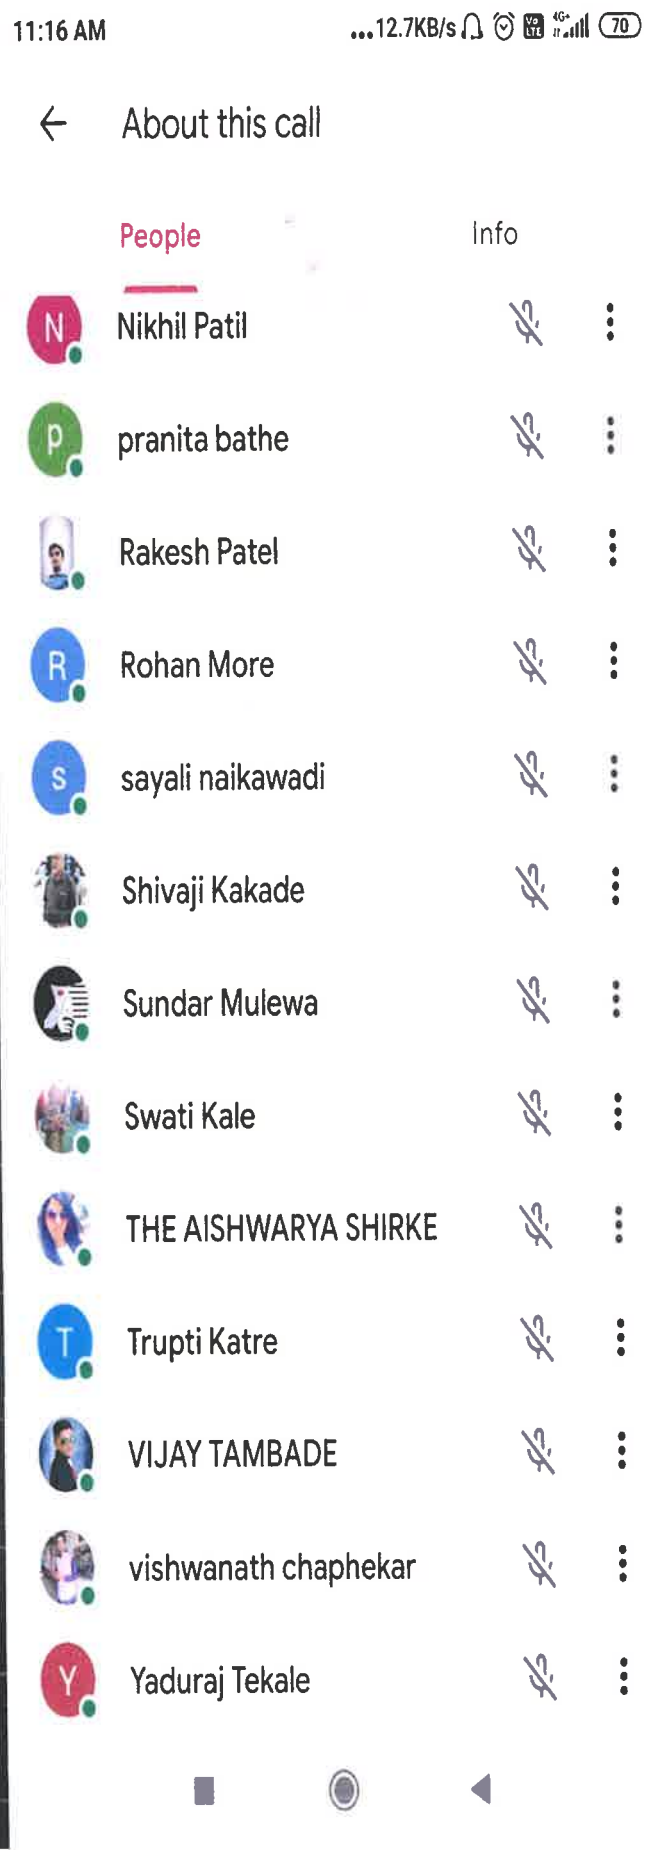

PRINCIPAL
AAER'S Asian College of
Science & Commerce
Dhayari, Pune-411 041

4. Participation and Engagement

The session received enthusiastic participation from 92 students from various disciplines like B.Com, BBA(CA), BSC(CS), MSC(CS), BSC, MSC. They actively engaged in the discussions, actively participated in the communication.

Here are some glimpses of program:

5. Outcomes and Observations

The outcomes and observations of the Self-Employment and Entrepreneurial Skills Session are aimed at equipping participants with the necessary knowledge and skills to succeed in the world of self-employment and entrepreneurship. The outcomes and observations of the Self-Employment and Entrepreneurial Skills Session aim to empower participants to take control of their career paths and achieve success in the competitive world of entrepreneurship.

6. Conclusion

Self-Employment and Entrepreneurial Skill Session typically involves summarizing key takeaways and insights gained from the sessions. It may also include encouraging participants to apply the knowledge and skills learned to start or enhance their own businesses. Additionally, the conclusion may emphasize the importance of creativity, resilience, and adaptability in the entrepreneurial journey. Participants may be encouraged to network with fellow entrepreneurs, seek mentorship, and continue learning and growing in their entrepreneurial endeavors

Report On Sheli Mendi Palan

Sheep farming involves the raising and breeding of sheep for various purposes, including wool production, meat production (lamb and mutton), and in some cases, dairy products.

Sheep are domesticated ruminant animals known for their woolly coats and herbivorous diet.

Types of sheep

There are various **breeds** of sheep, each suited to different climates, purposes, and management systems. Examples include Merino, Dropper, Suffolk, and Dorset.

Breeding and Reproduction

Sheep breeding involves careful selection of breeding stock to improve desirable traits such as wool quality, meat yield, and disease resistance. Ewes (female sheep) typically give birth to lambs once or twice a year after a gestation period of around five months.

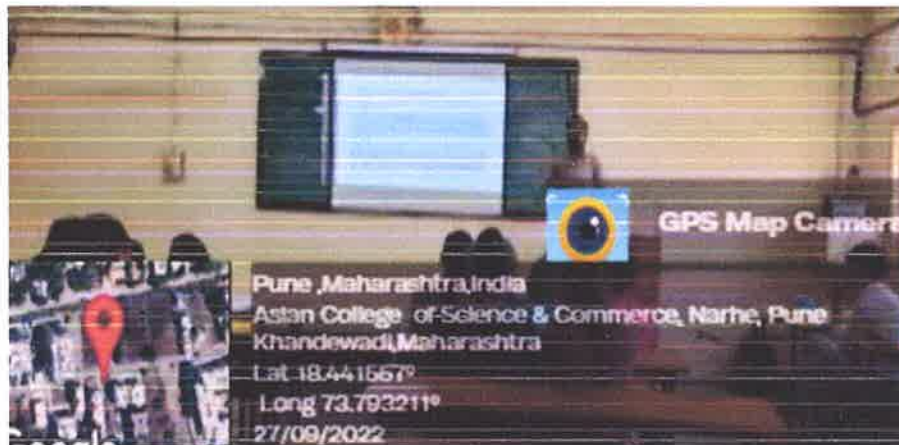

Feeding and Nutrition

Sheep require a balanced diet consisting of forages (grass, hay, silage) and supplementary feed (grains, protein supplements) to meet their nutritional needs.

Access to clean water is essential for sheep health and productivity.

Health and Disease Management

Sheep are susceptible to various diseases and parasites, including foot rot, internal parasites (worms), and respiratory infections. Vaccinations, deworming, and proper sanitation are important for preventing and controlling diseases.

Shearing and Wool Handling

Shearing is the process of removing a sheep's wool fleece, typically done annually to prevent overheating and maintain wool quality. The wool is then graded, sorted, and processed for various uses, including textiles, insulation, and specialty products.

Market Consideration

Sheep farmers must consider market trends, consumer demand, and pricing when deciding on breeding programs, flock management strategies, and product marketing.

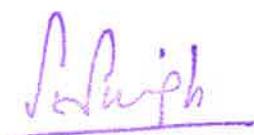

Environmental and Ethical Considerations: Sustainable sheep farming practices aim to minimize environmental impact, conserve natural resources, and ensure animal welfare throughout the production cycle.

Challenges and Opportunities

Sheep farming faces challenges such as fluctuating market prices, labor shortages, and climate variability, but also presents opportunities for diversification, value-added products, and niche markets. This overview provides a foundational understanding of sheep farming, but specific practices and considerations may vary depending on factors such as geographic location, scale of operation, and market dynamics. For a detailed report tailored to a specific context or region, further research and consultation with local experts may be necessary.

Report on MUSHROOM CULTIVATION

Introduction:

Mushroom cultivation has emerged as a promising agribusiness venture due to its low input requirements, high nutritional value, and growing demand in both domestic and international markets. This report aims to provide insights into the process of mushroom cultivation, its economic viability, and sustainability.

Types of Mushrooms:

There are various types of mushrooms cultivated commercially, including:

- Button mushrooms (*Agaricus bisporus*)
- Oyster mushrooms (*Pleurotus ostreatus*)
- Shiitake mushrooms (*Lentinula edodes*)
- Reishi mushrooms (*Ganoderma lucidum*)
- Porcini mushrooms (*Boletus edulis*)

Each type has unique growing requirements and market demand.

Mushroom Cultivation Process: The cultivation process generally involves the following steps:

Substrate Preparation:

Substrates such as straw, wood chips, sawdust, or agricultural wastes are sterilized and prepared to serve as the growing medium for mushrooms.

Spawn Inoculation: Mushroom spawn, which is the mycelium of the desired mushroom species, is introduced into the prepared substrate.

Incubation: The inoculated substrate is kept in a controlled environment with optimal temperature and humidity to allow the mycelium to colonize the substrate.

Fruiting: Once the substrate is fully colonized, mushrooms begin to fruit. This stage requires specific environmental conditions such as temperature, humidity, and light.

Economic Viability: Mushroom cultivation offers significant economic opportunities for farmers and entrepreneurs due to several factors:

High Market Demand: Mushrooms are increasingly popular in various cuisines and are sought after for their nutritional benefits.

Quick Turnover: Mushrooms have a relatively short cultivation cycle compared to other crops, allowing for quicker turnover and revenue generation.

Minimal Space Requirement: Mushroom cultivation can be carried out in relatively small spaces, making it suitable for urban and peri-urban areas.

Value-Added Products: Apart from fresh mushrooms, there is a growing market for value-added products such as dried mushrooms, mushroom powder, and extracts.

Efficient Resource Utilization:

Mushrooms can be grown on a variety of agricultural wastes, converting them into valuable products.

Reduced Environmental Footprint: Mushroom cultivation requires less water and land compared to traditional crops, making it environmentally friendly.

Carbon Sequestration: The mycelium of mushrooms has the ability to sequester carbon, contributing to carbon capture and soil health.

Challenges and Considerations: Despite its benefits, mushroom cultivation faces challenges such as:

Conclusion: Mushroom cultivation represents a sustainable and economically viable agribusiness venture with growing market demand and low environmental impact. With proper knowledge, investment, and management practices, mushroom cultivation can offer lucrative opportunities for farmers and entrepreneurs looking to diversify their agricultural activities.

This report provides an overview of mushroom cultivation, its economic viability, sustainability, and challenges, aiming to inform stakeholders about the potential of this agribusiness venture.

Report on Paper bag making

Introduction:

The Entrepreneurship Development Program (EDP) Cell has been instrumental in promoting sustainable and eco-friendly business initiatives. Among these, paper bag production stands out as an environmentally conscious alternative to plastic bags. This report examines the significance, implementation strategies, challenges, and outcomes of paper bag production facilitated by the EDP Cell.

The production of paper bags addresses the pressing need for environmentally friendly packaging solutions. With growing concerns about plastic pollution and environmental degradation, paper bags offer a sustainable alternative for businesses and consumers. Additionally, paper bag production fosters entrepreneurship by providing income-generating opportunities and promoting community engagement.

The EDP Cell has implemented various strategies to support paper bag production initiatives:

Access to Resources: Facilitating access to raw materials, such as recycled paper or sustainably sourced paper, as well as equipment and machinery required for bag production.

Business Development Support: Providing guidance on business planning, marketing strategies, pricing, and distribution channels to ensure the viability and success of paper bag enterprises.

Despite the support provided by the EDP Cell, paper bag production initiatives encounter several challenges:

Paper bag production provides income-generating opportunities for individuals, particularly in rural and marginalized communities, thereby promoting economic resilience and livelihood enhancement.

Conclusion:

Paper bag production initiatives under the Entrepreneurship Development Program (EDP) Cell exemplify the integration of environmental sustainability and entrepreneurship in addressing contemporary challenges. By providing training, resources, and support, the EDP Cell empowers individuals to establish viable paper bag enterprises, thereby promoting environmental conservation, economic empowerment, and community development. Continued efforts to address challenges, enhance technical skills, and promote market awareness will be essential in scaling up paper bag production initiatives and fostering a culture of sustainability and entrepreneurship.

Report on Workshop entitled "Mehandi & Rangoli"

Introduction:

The Mehndi and Rangoli Workshop organized by the Asian College of Science and Commerce, Dhayri, Pune, was aimed at fostering cultural engagement and artistic expression among students. The workshop provided a platform for 45 girls and 18 boys to explore the intricacies of Mehndi and Rangoli art forms, deeply rooted in Indian tradition and heritage.

Workshop Details:

The workshop commenced at [start time] in the college premises with a warm welcome extended to all participants. The event was facilitated by experienced artists and instructors proficient in Mehndi and Rangoli designs.

Activities:

Mehndi Design Session: The Mehndi design session commenced with an introduction to the history and significance of Mehndi in Indian culture. Participants were guided through various techniques, including traditional motifs and contemporary designs.

Rangoli Art Session: The Rangoli art session focused on teaching participants the fundamentals of Rangoli making, including color combinations, symmetry, and themes. Students learned different types of Rangoli designs and experimented with various materials and patterns to create vibrant and visually appealing artwork.

Interactive Sessions: Throughout the workshop, interactive sessions were conducted to encourage participants to share their ideas, experiences, and creative insights. These sessions facilitated peer learning and collaboration, fostering a sense of camaraderie among the students.

Conclusion:

The Mehndi and Rangoli Workshop organized by the Asian College of Science and Commerce, Dhayri, Pune, was a resounding success, fostering cultural appreciation and artistic expression among students. The event provided a platform for participants to explore their creativity, learn new skills, and forge meaningful connections within the college community.

Report on Jewellery Making

Date: 11/11/2022

Introduction: The Entrepreneurship Development Cell (EDP Cell) recently organized a workshop on jewellery making aimed at fostering entrepreneurial skills among participants. The workshop was designed to provide hands-on training and practical knowledge in the art of jewellery making, with a focus on both traditional and contemporary techniques.

Workshop Details:

The workshop spanned over 3 hours' and was conducted by experienced jewellery designers and craftsmen. It covered various aspects of jewellery making including:

Introduction to Different Types of Jewellery: Participants were introduced to different types of jewellery such as necklaces, earrings, bracelets, and rings. They learned about the materials used and the techniques involved in crafting each type.

Basic Techniques:

The workshop started with basic techniques such as wire wrapping, bead stringing, and basic metalworking. Participants were given hands-on training to master these fundamental skills.

Advanced Techniques:

As the workshop progressed, participants were introduced to more advanced techniques such as soldering, stone setting, and metal casting. They were guided through the process step-by-step to ensure a comprehensive understanding.

Design Principles:

A significant emphasis was placed on design principles such as symmetry, balance, and proportion. Participants learned how to translate their creative ideas into unique jewellery designs.

Marketing and Business Aspects:

In addition to technical skills, participants were also provided with insights into the business aspects of jewellery making. Topics such as pricing strategies, marketing channels, and customer relationship management were covered to help participants turn their passion into a profitable venture.

The jewellery making workshop received an overwhelming response with [Insert Number] participants from diverse backgrounds actively participating. By the end of the workshop, participants had gained confidence in their jewellery making abilities and expressed eagerness to explore entrepreneurial opportunities in the field.

Conclusion:

The jewellery making workshop organized by the EDP Cell proved to be a resounding success in achieving its objectives of promoting entrepreneurship and imparting valuable skills to participants. It served as a platform for aspiring jewellery designers to unleash their creativity and pursue their entrepreneurial dreams. The EDP Cell looks forward to organizing similar workshops in the future to continue nurturing entrepreneurial talent in diverse domains.

Report on Workshop entitled "Candle Making"

Introduction:

The Candle Making Workshop was organized by the Asian College of Science and Commerce, Dhayri, Pune, with the aim of providing students with hands-on experience in the art of candle making. The workshop aimed to enhance students' creativity, practical skills, and knowledge about the process of making candles.

Participants:

The workshop saw enthusiastic participation from 39 girls and 17 boys, totaling 56 students from various departments and years of study at the college. **Workshop Activities:**

Introduction to Candle Making: The workshop began with a brief introduction to the art of candle making, including the history, materials, and techniques involved. Students were provided with an overview of the different types of candles and their uses.

Demonstration: A skilled instructor demonstrated the process of making candles using various techniques such as pouring, dipping, and molding.

Hands-on Practice: Following the demonstration, students were divided into smaller groups to engage in hands-on practice. They were provided with materials such as wax, wicks, molds, colors, and fragrances to create their own candles. The students enthusiastically experimented with different shapes, sizes, colors, and fragrances to personalize their creations.

Sharing and Reflection: Towards the end of the workshop, students had the opportunity to share their experiences, showcase their creations, and reflect on what they had learned. This interactive session fostered a sense of community and encouraged students to appreciate each other's efforts and achievements.

Conclusion:

The Candle Making Workshop organized by the Asian College of Science and Commerce, Dhayri, Pune, was a resounding success. The workshop provided students with a valuable opportunity to learn a new skill, express their creativity, and collaborate with their peers in a supportive environment. The hands-on experience, coupled with expert guidance, contributed to the overall learning and enjoyment of the participants. Such initiatives play a crucial role in promoting experiential learning and holistic development among students. The organizers are commended for their efforts in organizing a memorable and enriching workshop.

REPORT ON PHOTOGRAPHY

Introduction:

Entrepreneurship Development Programs (EDP) play a vital role in fostering economic growth and innovation by supporting aspiring entrepreneurs in various sectors. This report focuses on the photography initiatives undertaken under the EDP, highlighting their significance, implementation strategies, challenges, and outcomes.

Significance of Photography Initiatives: Photography initiatives under the EDP offer unique opportunities for individuals to explore entrepreneurship in the creative industry. By providing training, resources, and support, these initiatives empower aspiring photographers to turn their passion into a sustainable business venture. Moreover, photography plays a crucial role in visual storytelling, branding, and marketing across diverse sectors, making it a valuable skill set for aspiring entrepreneurs.

Implementation Strategies:

The EDP employs various strategies to support photography initiatives. Offering photography workshops, seminars, and skill development programs to equip aspiring photographers with technical skills, creative vision, and business acumen. Facilitating access to cameras, lenses, lighting equipment, and editing software through rental services, equipment libraries, or partnerships with photography suppliers. **Mentorship and Networking:** Connecting aspiring photographers with experienced professionals, mentors, industry experts, and networking opportunities to learn from their experiences, gain insights, and build relationships. Photography initiatives under the EDP encounter several challenges: Acquiring and mastering photography equipment and software tools can be costly and daunting for aspiring photographers, especially those with limited technical expertise.

Market Competition:

Despite the challenges, photography initiatives under the EDP have yielded positive outcomes:

By nurturing artistic talent and creative vision, photography initiatives enable individuals to express themselves, tell stories, and convey messages visually.

Through training, mentorship, and hands-on experience, photography initiatives equip aspiring photographers with essential entrepreneurial skills, such as business management, marketing, and client relations.

Photography initiatives foster a sense of community among aspiring photographers, professionals, and enthusiasts, encouraging collaboration, knowledge sharing, and mutual support.

Conclusion:

Photography initiatives under the Entrepreneurship Development Program (EDP) offer valuable opportunities for individuals to pursue entrepreneurship in the creative industry. By providing training, resources, and support, the EDP empowers aspiring photographers to build successful businesses, contribute to economic growth, and enrich the cultural landscape. Continued efforts to address challenges, enhance skills, and foster collaboration will be essential in nurturing a vibrant ecosystem of photography entrepreneurship under the EDP.

Report on Cake Making

Introduction:

The Entrepreneurship Development Cell (EDP Cell) organized a cake making workshop on 18/9/2022 TO 22/9/2022 at Asian college of science and commerce. The workshop aimed to provide participants with practical skills in cake baking and decorating, aligning with the cell's objective of fostering entrepreneurship and skill development among students and aspiring entrepreneurs.

Workshop Content:

Introduction to Baking: The workshop commenced with an introduction to the art of baking, covering the basic principles of ingredient selection, mixing techniques, and baking temperatures. Emphasis was placed on understanding the science behind baking to ensure consistent results.

Cake Decoration Techniques: Participants were introduced to various cake decoration techniques, including frosting application, piping, and fondant modelling. They were guided through the process of creating visually appealing designs and decorations to enhance the presentation of their cakes.

In addition to practical skills, the workshop also provided insights into the business aspect of cake making. Participants learned about market trends, pricing strategies, and marketing tactics to help them turn their passion for baking into a viable business venture.

The workshop incorporated hands-on training sessions where participants had the opportunity to apply the techniques learned under the supervision of experienced instructors. This practical approach enabled participants to gain confidence and proficiency in cake making.

Feedback from participants was overwhelmingly positive, with many expressing appreciation for the practical insights gained during the workshop. Participants found the hands-on training sessions particularly beneficial, as they were able to apply the techniques learned in a supportive environment.

Conclusion:

The cake making workshop organized by the EDP Cell proved to be a valuable learning experience for participants interested in pursuing entrepreneurship in the baking industry. By equipping participants with practical skills, entrepreneurial insights, and networking opportunities, the workshop contributed to the development of a talented pool of individuals with the potential to succeed in the competitive bakery market. Moving forward, similar workshops and training programs can further empower aspiring entrepreneurs and contribute to the growth of the baking industry.

Session on Opportunities for Students and Faculties for Early Stage Entrepreneur

on 2nd September, 2023 Session on **Opportunity for students and faculties for Early Stage Entrepreneur** was organized in AAER's Asian College of Science and Commerce, Dhayari, Pune.

The session began with the Introduction of the topic under IIC Cell Students were enthusiastically towards the topic. The guest speaker was Hon. Nikita Ravindra Sawant Director Charvi Environ Pvt. Ltd. and Dr. Savita Singh (Principal of Asian College of Science and Commerce) they performed Saraswati pooja and lit the lamp of enlightenment Hon. Nikita Ravindra Sawant were felicitated by Dr.Savita Singh.

She is a Corporate trainer and with due advantage she started session with the very basic concept like what is business and there is need to know the steps of implementation or to start any business. She explained the difference between the Business and Startup and Job. Business involves the greatest risk factor but the way of doing things as per the innovative and challenges is involved in business. The Business should be started step by step and this involves various ups and downs.

Objective of the program :

1. To make the participants understand about the legal and ethical issues.
2. To enhance the knowledge and encourage the youngsters to start up their own venture.
3. To make the participants understand about the organizational skills adopted by the young blood to enhance revenue.

Session on Opportunities for Students and Faculties for Early Stage Entrepreneur

on 2nd September, 2023 Session on **Opportunity for students and faculties for Early Stage Entrepreneur** was organized in AAER's Asian College of Science and Commerce, Dhayari, Pune.

The session began with the Introduction of the topic under IIC Cell. Students were enthusiastically towards the topic. The guest speaker was Hon. Nikita Ravindra Sawant Director Charvi Environ Pvt. Ltd. and Dr. Savita Singh (Principal of Asian College of Science and Commerce) they performed Saraswati pooja and lit the lamp of enlightenment. Hon. Nikita Ravindra Sawant were felicitated by Dr. Savita Singh.

She is a Corporate trainer and with due advantage she started session with the very basic concept like what is business and there is need to know the steps of implementation or to start any business. She explained the difference between the Business and Startup and Job. Business involves the greatest risk factor but the way of doing things as per the innovative and challenges is involved in business. The Business should be started step by step and this involves various ups and downs.

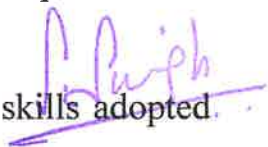

Objective of the program :

1. To make the participants understand about the legal and ethical issues.
2. To enhance the knowledge and encourage the youngsters to start up their own venture.
3. To make the participants understand about the organizational skills adopted by the young blood to enhance revenue.
